KNOW YOUR HAZCOM

Do you know what's on a MSDS?

Material Safety Data Sheets (MSDS) are chemical information sheets. They give basic information about a product's content, potential hazards and physical characteristics as well as providing information necessary to allow the product to be used safely.

All MSDS of products used at Robins AFB can be found on the web-based Hazardous Materials Management System (HMMS).

Alternatively MSDSs can be found at the HAZMAT pharmacy or local hardcopy binder.
